Web Portfolio

Skills *(Years of Experience):*

Node.js	(1)	REST API	(1)	Express	(1)	Vue.js	(0.6)
JavaScript	(2)	MongoDB	(1)	HTML	(2)	SCSS	(0.6)
CSS	(2)	Redis	(0.6)	TypeScript	(1)	Next.js	(0.6)
React.js	(1)	Redux	(0.6)	PHP	(0.6)	Git	(1)
Docker	(0.6)	Json	(1.6)				

EXPERIENCE:

Frontend Developer
Datacode srl, Italy
December 2023 - May 2024

- Developed and maintained high-performance web applications using React.js and Node.js.
- Optimized user interfaces with a focus on load speed and responsiveness.
- Implemented best practices in development, including TypeScript usage, to enhance code quality and resilience.
- Collaborated with a multidisciplinary team to solve complex issues and implement new features.

Frontend Developer
Impactium
March 2024 - August 2024

- Led the development of responsive user interfaces, ensuring adherence to top UX/UI standards.
- Developed reusable components and modules, accelerating the development process and simplifying application maintenance.
- Enhanced code architecture using TypeScript, reducing errors and increasing application stability.

Personal project:

Soul Swap

Full-Stack Developer

Developed using Vue3. It's an online store for manga drawings, where I implemented a CRM system and used WebSocket for real-time communication with the admin. The tech stack includes Express, MongoDB, Redis, REST API, JSON, CSS, Vue.js, Docker, and AWS."

Belance

Frontend Developer

provides design services with support for various frameworks such as React.js, Vue.js, Next.js, and regular markup. For this project, I used React to build a REST API along with Express, Node.js, and MongoDB."

PROFILE

Driven and innovative Frontend Developer with over one year of commercial experience in building and maintaining modern, scalable web applications. My passion for cutting-edge technologies and keen attention to detail enable me to create dynamic and responsive user interfaces. I focus on leveraging React.js and TypeScript to develop modular, maintainable components that scale with project growth. I am continually honing my skills and strive for excellence in every project.

Personal Attributes:

Committed to continuous learning and consistently seeking to enhance my frontend development skills. I am open to new challenges and actively look for opportunities to apply my knowledge in complex and innovative projects. I am highly responsible, effective in team settings, and dedicated to bringing projects to successful completion.

EDUCATION

I.T.T Enrico Fermi [*Italy*]
2020-2025
