EXPERIENCE:

Full-Stack Developer
Datacode srl
June 2023 - November 2024

- Developed and maintained web applications using React.js and Node.js.

- Optimized interfaces for fast loading and responsiveness.

- Collaborated in an agile team environment to design, implement, and deploy new features, ensuring timely delivery and alignment with client needs.

- Optimized UI performance and loading times, improving page speed by up to 40% and enhancing user experience across devices.

- Leveraged TypeScript to enforce strong typing and reduce runtime errors, contributing to a more maintainable and robust codebase.

- Participated in code reviews and architectural discussions, fostering continuous improvement and knowledge sharing within the team.

Full-Stack Developer (Part-time)
MeWay meway
December 2024 — April 2025

- Led backend development and database architecture, ensuring the successful delivery of three major projects under tight deadlines.

- Developed and integrated solutions using multiple APIs, including ChatGPT, ElevenLabs, Google, and Hugging Face.

- Delivered three projects on tight deadlines, showing efficiency and adaptability.

- Optimized API performance, reducing response times by 30% and increasing client request volume by 15%.

- Took ownership of technical direction and cross-team coordination, facilitating efficient development and timely releases.

PROFILE

Full-Stack Developer with over 2 years of proven experience delivering high-quality, scalable web applications. Delivered 6+ full-cycle projects across Europe, with a proven track record of optimizing system performance and leading backend development. Known for reliability, fast learning, and ability to deliver under pressure. I quickly adapt to new environments and technologies, helping teams become more productive and efficient. Known for taking initiative and driving projects forward, I believe my contributions significantly increase a company's chances of success. I'm motivated, reliable, and committed to continuous growth — both my own and that of my colleagues.

EDUCATION

I.T.T Enrico Fermi [*Italy*]
2020-2025
Informatica è cybersicurezza
