EXPERIENCE:

Full-Stack Developer
Datacode srl, Italy
June 2023 - May 2024

- Developed and maintained web applications using React.js and Node.js.

- Optimized interfaces for fast loading and responsiveness.

- Used TypeScript to improve code quality.

- Collaborated with the team to solve problems and add new features.

Full-Stack Developer
Impactium
March 2024 - August 2024

- Led development of responsive user interfaces with strong focus on UX/UI.

- Created reusable components to speed up development and simplify maintenance.

- Improved code architecture using TypeScript, Nest, Docker and AWS reducing errors and boosting stability.

Full-Stack Developer
MeWay
December 2024 — Aprile 2025

- ● Enhanced Python skills and worked extensively with the FFmpeg library.

- ● Developed and integrated solutions using multiple APIs, including ChatGPT, ElevenLabs, Google, and Hugging Face.

- ● Delivered three projects on tight deadlines, showing efficiency and adaptability.

- ● Managed both frontend and backend tasks to ensure smooth application performance.

- ● Gained experience with TypeScript, Node.js, React.js, and microservices using Bull.js for queue management.

PROFILE

Full-Stack Developer with over 2 years of proven experience delivering high-quality, scalable web applications. I quickly adapt to new environments and technologies, helping teams become more productive and efficient. Known for taking initiative and driving projects forward, I believe my contributions significantly increase a company's chances of success. I'm motivated, reliable, and committed to continuous growth — both my own and that of my colleagues.

EDUCATION

I.T.T Enrico Fermi [*Italy*]
Informatica è cybersicurezza

T.S National University [Ukraine]
Bachelor's Degree
